

Cevolani PVR 490 BA

flanger • seamer

Pre-owned combination machine comprising two carousels, with 8 stations each. The special thing with the flanger is the fact, that it is a 'swing' flanger, also known as 'spy' flanger, which can work with both very thin and hard tinplate. The flanging heads are moving like a swashplate, shaping always is done only on a part of the circumference, while the heads are moving. The seaming station is of standard roll- seamer design, and closes the lower end.

Technical specifications

CazProductNumber CPN	6366
Name	Cevolani PVR 490 BA
Tooling	105 mm
Year of Construction	1997
Can shape	round
Speed (up to)	400 cans per minute
